

The party just started
The lights dim down
Everpony's here
in your old hometown

You put that record on
The bass starts to thump
They get down to the beat
They stomp and jump

<chorus>
So let that vinyl scratch
It's in your name
You provide the score
To life's great game

You are a phonograph
Cause you're in the groove
So spin that record Vinyl Scratch
It's time to move
</chorus>

You're always in the back
You're never on the floor
But just for that,
We love you more

<chorus>
So let that vinyl scratch
It's in your name
You provide the score
To life's great game

You aren't an organ
Cause you'll never pull a stop
You spin that record Vinyl Scratch
Cause you're at the top
</chorus>

Nothing else matters
Once you're here
When we applaud
It's you we cheer

You'll never be forgotten
As long as you play
Let's party from the twilight
to the break of day

<chorus>
So let that vinyl scratch
It's in your name
You provide the score
To life's great game

There are many cannons
But we prefer bass
You spin that record Vinyl Scratch
And take your place
</chorus>

It's time to leave
Cause the party is done
But all because of you
We had some fun.
