Provide Greater Access to STEM Education to All Students

Piero M.

Tutor
San Antonio Math Include

Piero was part of the class of 2023 at Basis San Antonio Shavano. When he was younger, he used to play soccer all the time with his brother and father. Soccer is one of his passions since he was born because my whole family loved it and he was named after the Italian soccer player Alessandro Del Piero. He went to a private school from kindergarten till fourth grade and then he went to Basis. He has volunteered at food banks, his church, and other volunteer places to help because it makes him happy when he helps someone or when they are happy. Piero is part of Texas A&M Univeristy – Corpus Christi Class of 2027.
