

Privacy Policy for Mind Meld

Effective Date: July 20, 2026

Thank you for playing **Mind Meld** ("the Game"). Your privacy is highly important to us. This Privacy Policy explains how we handle information when you download, install, and play our mobile application.

1. Information We Collect

Mind Meld is designed with a "privacy-by-default" approach.

- **No Personal Data Collection:** We do not collect, store, or share any personally identifiable information (such as your name, email address, phone number, location, or device identifiers).
- **No Device Permissions Requested:** The Game does not require or request any special device permissions (such as access to your camera, photos, microphone, contacts, storage, or location).
- **Local Gameplay Data:** Game state information, including your current level, moves count, pairs matched, and completion times, is processed solely on your device's volatile memory to facilitate active gameplay. This data is not transmitted to any external servers.

2. How We Use Information

Since we do not collect any data, we do not use, process, or analyze any of your information. The Game runs entirely locally on your mobile device.

3. Third-Party Services

The Game does not integrate any third-party software development kits (SDKs), analytics tools, or advertising networks that track your behavior or collect data.

Note: The platform through which you download the Game (such as the Google Play Store) may collect basic, anonymous analytics regarding app downloads and crash reports as part of their standard platform services. Please refer to their respective privacy policies for more information.

4. Children's Privacy

Our Game is a casual card-matching memory puzzle safe for players of all ages. Because we do not collect any personal data from any users, we do not knowingly collect or solicit personal information from children under the age of 13 (or any other age group) in

compliance with the Children's Online Privacy Protection Act (COPPA) and General Data Protection Regulation (GDPR).

5. Security

We care about safeguarding your privacy. Since the Game operates completely offline and does not transmit or store data over the internet, your gameplay information remains inherently secure within your own physical device.

6. Changes to This Privacy Policy

We may update our Privacy Policy from time to time to reflect potential changes in our development practices or legal requirements. Any updates will be posted directly on this page with a revised "Effective Date." We encourage you to review this Privacy Policy periodically for any changes.

7. Contact Us

If you have any questions, suggestions, or concerns regarding this Privacy Policy or the Game, please feel free to contact us at:
