The Mirei Touyama Animations and Brittany Robinson Exposé Archive.

This is the definite exposure of **Brittany Robinson**, creator of JSAB fan series “*The Pink Corruption*”, Cookie Run fan series “*Cookie World*”, and original series “*the Heroic Six*”, as well as her sister, **Mirei Touyama Animations**, originally known as **Breabear Jones**. This google drive Archive includes not just my experience with Mirei, but also scandals with other individuals, OC and concept theft, and the Ownership drama.

Before you look, here’s a few notes to give context to some of the files..

- I know some of y’all have hard feelings against QuadragonX, but they TRIED to warn us and we did not listen. If any of you harass them over me including their exposé here, you’re not just spitting in their face, you’re spitting in mine and the other victims’ as well.
- The “Congriss” OCs that Mirei created are caricatures of people that Mirei sees as enemies, including me and Candi. I am being portrayed as a dictator figure in these series of drawings.
- Also, the “Cuphead” person in the Congriss members is someone I no longer associate with, as they are one of my exes from years ago and is a POS (which I’ll leave to be it’s own can of worms)
- The “Awareness” videos Mirei is making are included in here for you to watch and read yourself without giving her views, while also archiving them in the case she tries to delete them. I’m not hiding anything.
- The screenshots of Brittany’s OC shipping rules and blocklist are to show the way Brittany treats her fanbase as a whole. It’s not just Pink Corruption fans that she blocks in a heartbeat, but also fans of her other series such as Zirtix and the Heroic six. I can understand not wanting to have NSFW or AI of your series, but her own sister draws NSFW of her creations and her shipping rules became weirdly strict.
- The “Gore” that Mirei is referring to is me drawing gore artwork. I don’t do it for shock value, I do it for my own muse and morbid fascination with anatomy and body horror. All work is drawn from medical diagrams and references, not real gore.
- Also, she can say screenshotting her posts and stuff makes me a loser all she wants, but I don’t care. I’d rather be a loser than a 30 year old pedophile who’s stalking her grooming victim for calling her and her sister out and stealing people’s OCs. Screenshotting is for documentation, not a weakness, and this is a tactic being used to invalidate evidence.
