

touch of it but my feeling is they should open it the border and just let them pour it let everybody pour in and yes and then the answer which is well then there will be all these problems yes there should be it shouldn't be so great here is what I'm saying in America it shouldn't be it's a did you hear it just wait I'm fixing to show you that it should not be so great here weird thing to sequester a certain group of people and try to keep upping their lifespan and their lifestyle and just keep trying to increase that for this group of people and then everyone's yes this group of people that was given an inheritance by our forefathers that fought and died to give that to us yes you're right dummy and then there's pressure people trying to come in so they can enjoy it uh and then it gets worse and worse down here I mean I'm in Canada it's really just from down here uh there's something wrong with that that's not a system that's working and it forces people to do cruel things to other people there's a lot of people that die so Americans can be safe

they're just dying you know weddings that are drone bombed in Yemen because the guy said something that might have resulted in American insecurity not even like definite American deaths but like just so we can breathe a little easier folks die and folks do labor in unsafe places so that we can keep the prices where we like them there's so much about American life that other people pay for that's part of it but also it's not good for us either it's not a good way to live in a gated community you know if if you let folks pour in like any other wave it'll kind of slosh and then y'all just things will be different I I don't know like there what'll really happen a bunch of people like well they just come with knives and start killing everybody I don't think so a gated community America is a gated community yes it's a privileged Nation God shed his grace on thee he crowned your good with beautiful Brotherhood from sea to shining sea why because we are an end time Israelite Nation we have the Bountiful blessings of Joseph we are the birthright carriers of Father Abraham through his his great great grandson Joseph we have the birthright blessing that promised these blessings to us but according to Democrats like him America is nothing special no wonder they hate make America great again because they want to make America equal and let everybody absorb this good land to where it's no longer a good land see the only reason you want to deter illegal immigration is if if you truly believe that foreign Nationals are aliens does not have a right to enter

the United States simply because they want to the problem with all of them is they do not believe in the sixth commandment Thou shalt not steal socialism throws this commandment away in favor of redistributing the wealth and letting everything balance out Thou shalt not steal the Bible sets forth the sanctity of someone's labor their hard work and the right of the laborer to retain the fruits of his labor that is God that is creation that is nature it starts when God labored for six days to recreate the heavens and the Earth God

owns the Earth because why he labored over it don't you understand he labored and it's his in America we have labored and then what did God do Yahweh he created a man to keep up the garden and he gave that man 90 of the fruit of that Garden and he asked the man to give God 10 as a reward for God's labor and making it all possible America was changed gradually from a Christian Republic to a socialist democracy

beginning in 1933 with the Roosevelt administration and that core change was in the concept of who is the source of Human Rights all

of this what we see today is the ripening of the fruit from a tree that was planted many years ago America is special America is extra America is God's end time Israel if you don't believe me I dare you I triple dog dare you to go to fhtv.tv and watch my teaching called tracking the tribes I will track those tribes from the prayers of Jacob all the way to the United States of America I challenge you go to fhtv.

tv watch all seven of that series you will know why they hate America
