RULES OF THE

REPLIES / SPEED

When it comes to replies I may not be the fastest but I would appreciate it if you would have some patience ! We all get busy with rl shenanigans or need a day to focus on our mental health ect. && to be rushed or messaged a thousand && one times is the number one way to make me softblock/drop our thread. I'm not on anyone's schedule but my own && **I won't be guilted into anything**. When it comes to myself, however, I'm a patient person ! Take as much time as you need to get back to our thread.

MATURE THEMES

This muse && posts will contain adult themes such as explicit languages/gore/blood due to Freljordian culture && the like ! Sexual situations are to occur here as well ! But only through chemistry && development since Ashe is only physically attracted to those she's established a foundation of a bond or relationship with. Any nsfw will be set in DMS since timeline smut makes me uncomfortable to write. NOTE: THIS ACCT IS MULTISHIP. . **STATEMENT: PLEASE HAVE YOUR AGE SOMEWHERE ON YOUR PROFILE. I WILL NOT WRITE LEWD WITH MINORS MUNS.**

THREADS/GENERAL WRITING

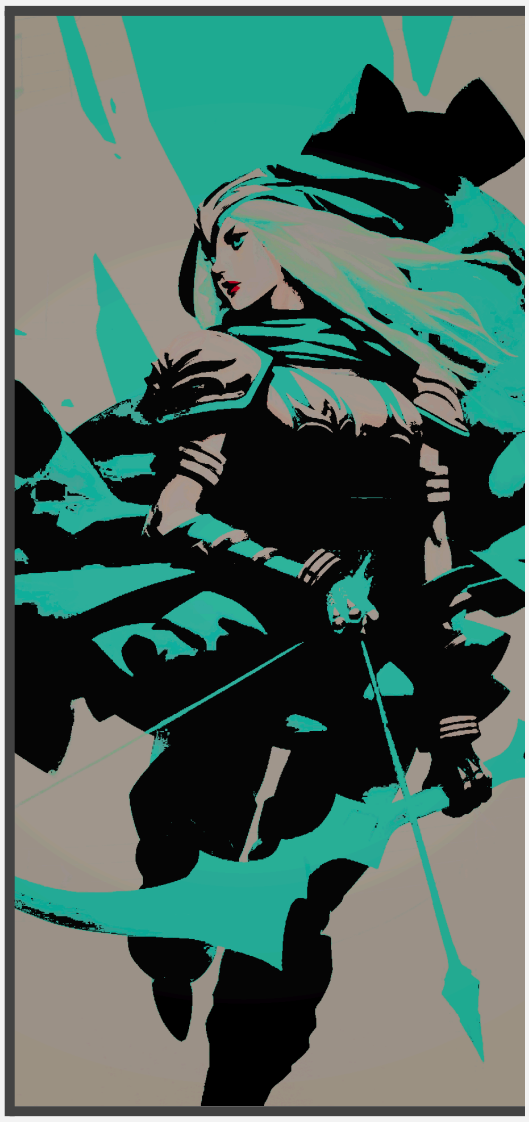

This feels like a must for me to say this but I have a real habit of being lengthy with my writing ! I sometimes get prone to letting my imagination get the better of me and it leaks into threads - which I've noticed gives the impression I want someone to match me in length. **WHICH IS NOT THE CASE**. I genuinely care more about what's actually being done/said than how long or short something is ! as long as you don't send me a "and then he walked to the kitchen" after I send you a 3-4 starter/continuation of something..

.

HATE IS NOT ALLOWED HERE.

If I see any slurs or offensive language from your account or interacting with one I will softblock. This is an escape for alot of people (myself included) and I have no patience or tolerance for immaturity on my timeline or anything that is detrimental to my friends and their personal wellbeing. I don't care if this makes me seem like a snowflake. I won't apologize for being political here either in adding if you support anyone that represents division, racisms, homophobia, and overall not supportive of a single human right, you're straight up not going to have a good time.

e.

SHIPPING

Continuing on with my earlier point that I love ships ! Especially odd ones && rarepairs. But something that has always bothered me was the **FORCING** of ships. That not only gets you a block but an advertisement as well to warn everyone that you're not someone that respects anyone's wellbeing or personal comfort.

.

EDITS

Seldom will I post my edits on the tl but when I do I would really appreciate if you didn't steal or use them for personal usage. This goes for other writers as well ! if I catch you stealing an edit one of my friends worked really hard on I will kick you down a staircase and call you out on it. lets not be embarrassing.

INTRODUCTIONS

Hello ! If you've made it this far, congratulations ! You may call me "Ashe-mun" since I don't normally like tons of people knowing my name unless we're close friends ! **24**. She/Her. Gamer && Writer.

SELECTIVITY

This is a mutuals only account && will only be following back such. I will not follow back lewd accounts unless we're good friends && I trust you.

FRELJORD.

VERSES & HEADCANONS

CLASSIC - (RUNETERRA) *" I hold a bow of true ice, I hold my heart. "*

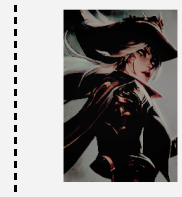

ICEBORN **WARMOTHER** of the Avarosan Tribe, Ashe commands the most populous horde in The Freljord. Stoic, Intelligent, Idealistic, yet uncomfortable as her a role of a leader. She taps into her ancestral magics of her **LINEAGE** to wield her bow of True Ice. With her people's belief she is the mythological hero **AVAROSA** reincarnated, Ashe hopes to **UNITE** her people by retaking their ancient, tribal lands.

---

*" Sorry Lucian, but I have a horse. Her name is **Virtue**. Stings, doesn't it? . "* : **HIGH NOON**

A **MECHANICAL ANGEL** BUILT at the dawn of the pioneer age, Ashe is fueled by the blood of deities gunned down in the infamous land rush that destroyed heaven. She's adopted a devil-may-care attitude as she seeks adventure, choosing to forgive and protect the same mankind that forever robbed itself of eternal paradise.

.

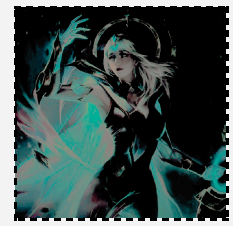

PROJECT : *" You can catch me, but you'll never hold me. "*

While on the frontlines of a corporate war, Ashe witnessed the human cost of PROJECT'S ambition. Now the leader of a resistance group ***G/NETIC***, Ashe sets her sights on nothing less than the ***DOWNFALL*** of the most powerful corporations.

COSMIC : *" Queen Ashe soared across our midst, blazing like an incandescent arrow. "*

Benevolent ruler of the stars, Ashe fires her arrows across the endless space and darkness. Creating new constellations wherever they land. Her court drifts along the cosmos, **replenishing** stars that have faded.

"And born from the ashes ; she is a warrior bloodied in black.. " : ***WARDENS AND MARAUDERS***

Magelord culture was, at the height of the empire's power, strictly segregated into brutal warrior-castes whose rise and fall was dictated by their victories in battle. Little regard is paid to the militarism now, but marauder captains like Ashe maintain power by slaying their enemies and instilling fear into them with her confidant and steed, Warwick.

MODERN VERSE : *" This will change everything. "*

HARD-WORKING AND STRUGGLING TO BALANCE her personal life with an overbearing mother and father, or rather, step-fathers, Ashe Iverson worked her way up from impoverished streets of Iceland to become the CEO of the most successful magazine company in New York City. Tasked with gaining supporters and readers alike by covering **INTERNATIONAL** news with occasional podcasts and interviews with the hottest people trending, she can usually be found with her face buried in her phone, or guzzling down a coffee her assistant loyalty brings her at a moments notice.

Ashe is a good drawer. She likes sketching doodles and events/people from memory. Her favorite pieces are animals and different landscapes, but she wants to promote herself to faces soon, and occasionally sits with the smaller children in her tribe who invite themselves to paint pictures with her.

Ashe has an acute fear of motherhood. A result of **PTSD** from the long blizzards and winter months that have taken both the lives of mothers and newborns alike due to hypothermia and starvation. She's more partial to adoption of the infants and toddlers that are abandoned by families or the demolished remains of settlements.

She has her own wine cellar in her settlement where she has an assortment of Demacian and Shuriman brews, but nothing beats Freljordian ale. Mostly supported and served by her friend, **Gragas**.

Freljordian's often sing or use flutes and drums as instruments and Ashe is no exception. She has a secret joy of singing to old songs about Ornn or Anivia, even the Seal Sister.
