

Hi I'm Lucas Pestana. I'm a passionate fan of film, interactive arts and music with a keen interest in sound recording/design. To me, film is a valuable form of art. It can capture all the emotions of the human experience. Film can give people a different outlook on life. People can share experiences with what's on screen.

I thoroughly enjoy the deliberation and making of film. Related to sound, I have always enjoyed listening to music. I had learnt how to play the guitar since young and the enjoyment I get through the process of making music has never faltered. Music's ability to connect with people so deeply is what makes my job so vital.

I am currently in the course of Digital Film and Television at Temasek Polytechnic. I've directed a short film in year one of Temasek Polytechnic called 'Give Regardless'. I was the sound recordist, sound designer, and film score composer for 3 of the school's film projects (The Disposal System, The Final Service, and The Pirate Club). I also did the sound design and score for the Digital Film and Television (DFT) End Tag which is shown at the end of all the Major Project films.

I'm constantly looking for opportunities to improve and learn new skills.

Projects I've worked on:

Temasek Polytechnic Film Projects

The Disposal System (Year 2 Short Film Project):

Role: Sound Recordist, Sound Designer, Film Score Composer

https://youtu.be/ediaV9F5gBM?si=P_wbgCAVHyh97el
