Sew Easy Boy's Wallet PATTERN for kids

deliacreates.blogspot.com

Materials:
1 sheet of craft felt
matching thread

Tools:
colored pencil or sewing marker
scissors
sewing machine
sewing pins

Wallet Pattern

Cut 2 Large Felt Rectangles

Wallet Pocket Pattern

Cut 1 Small Felt Rectangle

1. Gather your materials and tools.

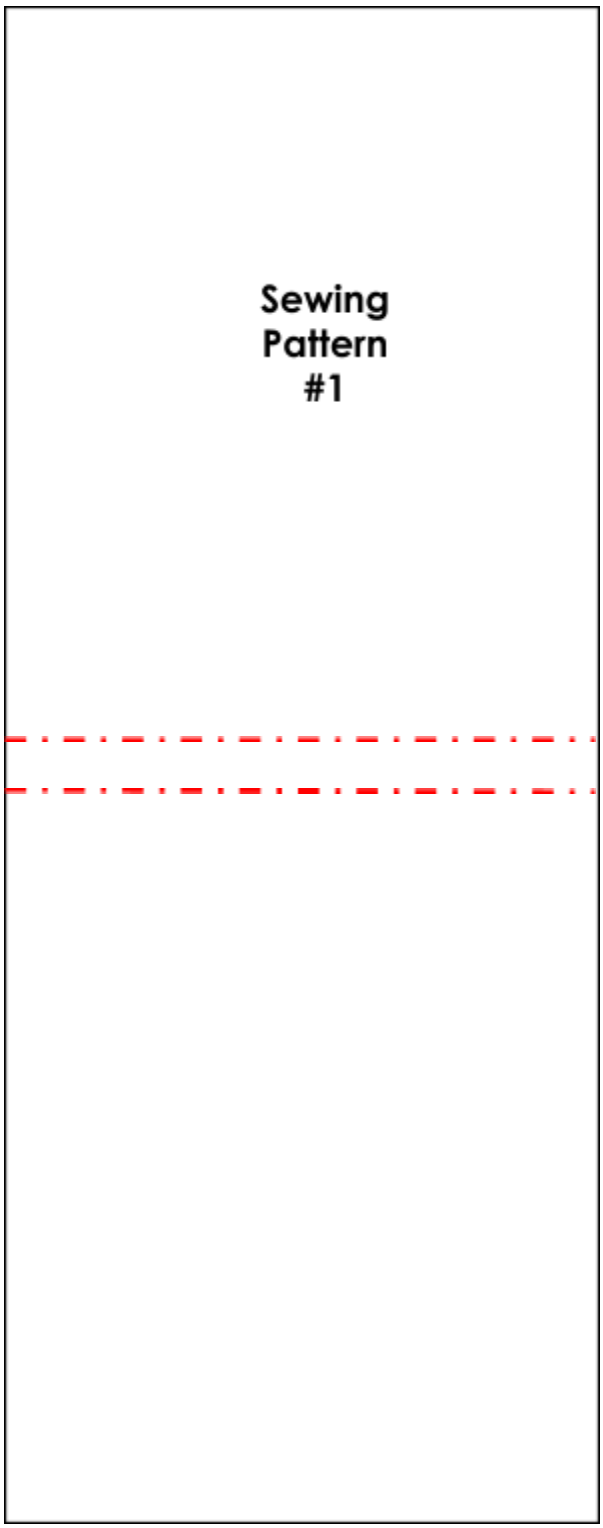

2. Cut out your wallet pattern pieces on the black solid line.

3. Using the first two pattern pieces, trace around them on the craft felt. Then cut them out.

You should have two large rectangles and one small one when you're done.

4.. Take one of the large rectangles and the small pocket rectangle. Lay the small rectangle on top of the large one right sides facing up. Line the small one up with one side of the large one. *

5.. Now, it's time to sew!

7. Lay your sewn stack of felt rectangles pocket side down. Now lay the second large rectangle on top, right side facing up.

8. Lay sewing pattern #2 on top. Following the red dotted lines again, sew around three sides of the rectangles. Leave the fourth side open for putting in money.

** You're done! Pat yourself on the back.
