[Mommy? \[Filly Anon\]](#) [Dark, Abuse, Multiple Endings][[Finished](#)]

A tale between Nonny, who was formerly know to Ponyville as the asshole name Anonymous, who is now a filly living with Twilight, who Nonny looks to as a mother, has no recollection of who he once was, but due to Twilight's inability to let bygones be bygones she lets a torrent of abuse onto the innocent filly unknowingly and causes a traumatic series of events between the two.

Leaving her and Twilight to try and pick up the pieces between each other. If only she wasn't so inexperienced at it.
