## *Website building*

### *Main website:*

*My websites are built on the Carrd platform. You will need to make an account to edit the website yourself after I have built it. All of your content, services, and rates will be typed on a Google doc to be easily edited. This will be shared with your email address so that you can edit it as content is made. It is recommended that you use your main email address instead of your work email, but this is up to you. Please fill out the following Google Form with all the necessary information:*

*<https://forms.gle/8q5pbVzFi7xQ9Z737>*

*Cost: \$15*

### *Mailing list:*

*This will be a Google Form to create your own mailing list. It will be up to you to check for responses and add them to your mailing list, as well as sending out the texts and/or emails. Please fill out the following Google Form with all the necessary information:*

*<https://forms.gle/KBFqMPuZaliipWWh8>*

*Cost: \$10*

### *Google Drive:*

*For ease of access, it helps to put all of your content in a Google Drive folder. You will need a gmail account to use this and access your content this way. I will set up folders that will help you keep your content organized. It will be up to you to maintain that organization unless you purchase Google Drive Maintenance.
