

Status Report for the Special Education Program

May 2025

- Continued testing and placement for transition students
- Annual IEP Reviews
- Planning for the 2025-26 school year
- End of Year Paperwork
- Planning for upcoming professional development - Summer PD
Functional Behavioral Analysis and Behavior Improvement Plans

This time of year, we spend the majority of our time conducting IEP annual reviews. Our students have made a lot of progress this year in meeting IEP goals and objectives. We are meeting and planning for the 25-26 school year in order to have a successful start for our students.

Our teachers have worked, planned, and implemented many supports in order to serve special education students. I appreciate each one of our teachers that care for and support our students.
