

Geography: World Cultures

My Culture Project: Time Capsule

**Due: September 14th - Beginning of Period**

For this first assignment, you will be creating a time capsule that will house FIVE elements of culture that best reflect your life. You will need to go home, explore your surroundings and find five artifacts that you will then put into a time capsule of your choosing (shoe box, guitar case, cereal box, etc.). You will also write a letter to whomever (or whatever) finds your time capsule in the future. Your letter should describe each artifact and explain which element of culture it represents and why you chose to include that in your time capsule.

You will present your time capsule to our class.
