- **Name**, Designation, Affiliation, Country, Email

Important dates:

Last date to submit the special session proposal: February 15, 2027

Each proposal should also include a title, a list of authors, and short abstracts of the committed papers. The complete proposal should be limited to no more than three pages. A special session is expected to address topics that may not naturally arise out of the regular submissions to the conference through the technical committees. ***The justification for the proposal should explain why a special session is needed to address the proposed topic.*** No individual can appear as an author or co-author on multiple papers in a special session. An exemption can be made when the first paper is an overview paper (preferably by the organisers). In this case, the co-authors of the first paper can be co-authors of one additional paper in the same session. The template and submission system are available on the conference website: <https://icispes.com/call-for-special-session/>
