We sincerely appreciate your time and effort in sharing your experience. Thank you for considering leaving a testimonial to help us continue providing exceptional automotive solutions to our customers.

"A place that goes above and beyond. The technician not only fix my car, but showed me what I needed to do to fix the problem in the future. Incredibly kind and exceptionally professional." ~ Stephen Holland

"It's a small thing, sure, but it shows great attention to detail... I've put window tint on each car I've owned over the years so I know not to roll down the windows for a few days.. However, sometimes you forget, or your spouse or kids forget and they do it to a fresh tint, which can cause some issues.. This is literally the first time I've ever had a shop put these great reminder tape strips on the window buttons (on all four doors)... Yes, the tint looks great, and their pricing was excellent (they have entry-level tint, plus the higher end tint options too). I was just surprised to see the DO NOT ROLL DOWN tape when I got my car back--Kudos to the team at Autohaus!" ~ Gordon Bell

"Manny and his crew are great to deal with. They took care of me with my 09 Gti getting window tint, and as a salesperson he took care of my customer to get a spray in bed liner. Keep it up guys!" ~ Justin K.

"We get tinting done here, really helpful and knowledgeable service. Very nice and accommodating."
~Jenny Harris

"Great job on my tint today. Very professional and came to me highly recommended. I'm happy to say they didn't disappoint!!" ~ Brent Johnson

"A few weeks ago, I was referred to Autohaus to order a factory amp upgrade for my 2020 X3. Joe was awesome in explaining what to expect, how long the job would take to complete etc. He also suggested that I emailed a playing list so that the tuner tech would be able to adjust the sound based on my music

tastes (which is very diverse). Folks, if you truly value your listening experience, I say this step is necessary. You need to consider the dynamic range of the music you enjoy listening to!

The upgrade went well and I was pleased. Joe explained that he felt we could get more from the under seat subs (aftermarket) to open up the sound by adding an additional piece which was relatively inexpensive, but I should see how I felt for a few weeks and let him know if I wanted to go ahead with the additional piece (sorry, I can't remember what it is). I'm somewhat of a sound geek and completely agreed with his assessment after a few days and had him order the piece and booked an appointment (it was yesterday) All I can say is WOW! Totally opened up the sound stage in my car! The tuner, Dan, did a phenomenal job placing the module (completely invisible) and retuned the system. When Joe explained the operation of the module and I started to listen to my music, I was simply floored. So much so, in fact, that I sat in my car for about an hour listening to music after I got home. Without a doubt, Autohaus is the place to go if your music listening experience is important to you." ~ NZ Freeman

"I consider this shop the best in the Bay Area, because when it comes to professionalism in service and parts this is IT. You will be wasting your money and time in others shop. Ever since I came here over 10 years ago and done services over a big number of cars, and had not problems with anything, which makes this shop unique. The gentlemen who work at the main desk which is Matthew and Rich are a great team, because these guys will make sure that when drive out of this shop you are completely 100% satisfy. I highly recommend coming to this shop because is the best out there and I'm sure that we will coming in the near future for more services with our friends and family. Keep up the good work, Best!" ~ Andres N.

"Their response time is very quick. If you need a quote, they'll let you know exactly how much it will be. They took about 3 hours to install my backup camera. I love it because it has so many things that comes with it. Instead of buying a new car with a back up camera, i just decided it would be a better idea to invest in this. It saves more money and I'm really happy with the outcome." ~ M.S.

"I made a visit to Autohaus to initially add to my security system on my vehicle, but also got the premium film covering as well. They guys were all great. Loren, was funny and very helpful too. Thanks again, for the ride.. 😊 Manny, thank you and the team out there. Will definitely 👍 recommend your services. JOB well DONE." 👍👍👍 ~ The Guy

"Very polite and immediatly new what to do with both auto remotes. Fairly priced for the project unlike their considing business. Yes, i would go there again, easy to locate." 👍 ~ Karen Gums

"See Matthew, he will make u sound and look cool!!!!" ~ W. Adams

"I own a vehicle with no back up camera, concerned about safety, I looked around for a reputable auto shop that could manage my request. I was referred to Autohaus and they did not disappoint. The auto Technicians were friendly, knowledgeable and put me at ease. The process from consult, to ordering, to install, was a breeze. Thank you David and Matthew for your expertise. I definitely recommend this business." ~ Vanessa Turner

"Go check out Autohaus. Their displays are state of the art...top notch! Everything is very clean and Matt is very knowledgeable when it comes to 12 volt. I purchased a full Alpine Type X sound system for my

Denali. Everything came out perfect and it looks like nothing was done but sounds amazing. They are willing to work with any budget and don't cut any corners unlike other shops. Seriously, go check out their displays." ~ JM Glass

"I took my car to a few different places to get quotes and found that Autohaus had the best price. I was in a hard spot financially but these guys took care of me and hooked me up with a great finance program. Manny was amazing and I felt confident in my decision working with this family owned company." ~ A. M.

"I just got my license and my mom prepaid for me to get my windows tinted at Autohaus. I was a little nervous going by myself but the staff made me feel very comfortable. They were all very friendly. I love my tint and will definitely refer all my friends. Thank you!" ~ Mya Weachtler

"I have a 2010 Compass and got leather seats a few weeks ago. Wow!! Why did I wait so long? It looks like a brand new car and I don't flip-out when my son spills his drink. I just wipe it clean with no stains. I also have an upcoming appointment for an alarm system. I normally don't write reviews but had to because I'm so in love with my car again. Michelle was very friendly every time I called and Rich/Matthew helped me with my leather. Thank you to an awesome business. 6 Stars for sure." ~ Danielle Sheets

For the WEB DEVELOPEMENT TEAM:

Include video testimonials where customers show off their modified vehicles and discuss their experience with Autohaus Automotive Solutions.

Google Review Instructions.

Leaving a review on Google for Autohaus Automotive Solutions is a great way to share your experience with others and provide valuable feedback to our team. Your review can help future customers make informed decisions about our services and also assist us in maintaining our commitment to excellence.

1. Open Google Maps on your device or computer.
2. Search for "Autohaus Automotive Solutions" to bring up our business listing.
3. On the listing, you should see an option to "Write a review". Click or tap on it.
4. Sign in to your Google account if prompted. If you don't have a Google account, you will need to create one in order to leave a review.
5. Select a star rating and write your review. Be honest and specific about your experience with our services.
6. Once you have finished writing your review, click or tap "Post" to publish it. Your review will then become publicly visible on our business listing.
