

Threads: <https://bit.ly/2GiUKoK>

DIY is not too bad, if you follow directions and have a normal tool set you can do it in about 3 hours. I used this video the first time, was very helpful

<https://www.youtube.com/watch?v=xyZLjJOxBvQ&t=1108s>

There are many revisions to the part, the latest is part number is 06E145621R. You can find them for around \$200.

I verified my leak by covering one hole of the intercooler, blowing into the other, and listening for air leaks
