Miranda Plumbing & Air Conditioning

Air Conditioning Maintenance And Tune Ups In South Florida

The average air conditioner is expected to last about 15 years at peak efficiency. Because Vero Beach, Port St. Lucie, Palm Bay, Jupiter, and the rest of South Florida are warm throughout the year, our community puts this lifespan to the test. But with ongoing maintenance and tune ups from a professional local air conditioning company, that AC can potentially last for decades.

At Miranda Plumbing and Air Conditioning, we know how important air conditioners are to your comfort and safety. We also know how important it is to have an AC maintenance company that you can trust to keep your air conditioner working properly.

With annual tune-ups and on-demand maintenance services, call Miranda today at [\(844\) 335-1585](tel:8443351585) or fill out our online form if you have questions about our AC Maintenance and Tune Ups.

How Do Our AC Maintenance Services Work?

Miranda Plumbing and Air Conditioning is a full service, 24 hour air conditioning company, available to help with not only tune ups and inspections, but also repair, replacement, and new installations. We also have emergency services for those that are in need of urgent help.

But the core of our work is with homeowners that are looking to make sure their AC systems continue to operate efficiently. We are available for one time solutions, such as when you are concerned there is a problem with the AC, and we can provide ongoing, annual tune-ups that ensure that all of the components are clean, in peak condition, and working properly.

When We Arrive For An AC Tune-Up, We Perform All Of The Following:

- Competitive pay and plenty of job calls.
- We clean the coil surfaces when accessible.
- We clean, vacuum, and add algae tablets to the condensate drain.
- We assess the condition of the condensate overflow safety switches.
- We disinfect the interior cabinet insulation and coil.
- We inspect and test the blower motor circuits, fan relays, run capacitors, and amp draws.
- We tested the electric heater.
- We verify all fuses, wires, and breakers are correct and functioning, and more.

During the 47 point inspection, we'll adjust, tighten, and otherwise address any concerns we have about the quality and success of the system, testing the cooling functions and ensuring

<https://www.mirandahomeservices.com/>

that every part of the AC is in place, working properly, and capable of withstanding ongoing use. If we do spot any concerning problems, we'll provide a complete list, show you the issue, and answer any questions you may have.

We're familiar with all AC brands, including American Standard, Rheem, Lennox, Ruud, York, Carrier, Goodman, Trane, and many others. We also work with systems both old and new, and will never push a new AC on you if your current AC can be maintained – no matter how old the system may be.

While we are available for one-time service, we encourage you to consider annual tune-ups, which we can schedule in advance to ensure that you never have to worry about forgetting your AC maintenance.

How Your Air Conditioning Maintenance Service Works In 4 Easy Steps

Schedule Your AC Maintenance:

Call us at [\(844\) 335-1585](tel:8443351585) or Schedule an Appointment online.

Our customer relationship team will schedule an expert technician to visit your home at your earliest convenience.

Meet Your Technician

A day before your scheduled service, our team will confirm your appointment and send you an email with your technician's name, a photo, and a short bio with some fun facts about their background.

Relax While We Work On Your AC

Our technicians will arrive at your front door ready to work on your AC system. While at work, the tech will wear protective shoe covers in your home at all times and lay down spotless drop covers to protect the workspace and keep your home clean.

Let Us Know How We Did

Your opinion matters to us. That's why our technicians will always ask you to provide feedback after they complete your AC Maintenance Service. This is also the perfect time to let us know if something went wrong, so we can quickly remedy the situation!
