

# Subject Cryptocurrency Resource Sheet

## Chapter 6

### KEY VOCABULARY

Vocabulary Word	Definition	Example
collaboration	Working together	If companies collaborated using blockchain technology, they could be more successful at certain ventures.
asset	Something of value	Our greatest asset is time.
stigma	A negative association between two concepts or items	There is often a stigma associated with cryptocurrency that it is associated with black market or illegal transactions, but because all of the transactions are public, this is not necessarily valid.

### KEY CONCEPTS

Concept	Definition/Explanation
peaks	Times in which the stock market has risen.
troughs	Times in which the stock market has dropped.
Social construct	Something that exists due to society's agreement that it does.

### KEY EVENTS OR FIGURES

Name of Event or Figure	Definition/Example
Creation of CBDC	Central Bank Digital Currency was created as an alternative to cryptocurrency by banks.
Creation of Digital Yuan	China created this CBDC as an alternative to cryptocurrency because it banned cryptocurrency very early in its creation.
