Rail Road connection

Southerners didn't care about the RR

Stephan Douglas was Senator from Illinois, wanted the RR, and was heavy into Chicago real estate. Douglas wanted the RR, needed southern votes, only way he could get the votes was to appeal to the southern Senators, they wanted more slave territory... Douglas made the deal. RR in exchange for the repeal of the MO Compromise they wanted to repeal the Missouri Compromise.

So the KNA Act 1. Repealed the MO Compromise, push Popular Sovereignty (people who live in the territory decide the issue of slavery) in the old Louisiana Purchase, thereby, allowing for the possibility of slavery in that territory.

Douglas Argued:

The territory was not good for slavery.

He said self-government/democracy was the best solution

Senator David Atchison of MO, reflected Southern attitudes,

“Intemperate, profane, and bellicose, Atchison was the most outspoken defender of southern rights in the Senate.” 122

MO would be “surrounded by free territory... with emissaries of abolitionists around us... this species of property would become insecure.”

Salmon Chase

Charles Sumner

Abolitionists societies scream!

Anti-Slavery Coalition (Anti-Nebraska) Northern Whigs and anti-slavery Dems, create a new party the Republicans (GOP)

LINCOLN: Oct 1854, speeches in Peoria and Springfield (see p127)

Lincoln and the Nebraska Act,

Lincoln was “aroused as he had never been before.”

He argued the legacy of the founders, to end slavery eventually and that repealing MO Comp was against the tradition...

Lincoln denied, “that there can be moral right in the enslaving of one man by another.” 127

He did not blame the Southerners for slavery, he was very understanding of the problem.

When they “tell us they are no more responsible for the origin of slavery, than we are, I acknowledge the fact... they are just what we would be in their situation... When it is said that the institution exists, and that it is very difficult to get rid of it.”

“I surely will not blame them for not doing what I should not know how to do myself. If all earthly power were given me, I should not know what to do, as to the existing institution. My first impulse would be to free all the slaves, and send them to Liberia.” (which he found impossible)

“What then, free them and keep them among us as underlings? Is it quite certain that this betters their condition? ... What next? Free them, and make them politically and socially, our equals?... We well know those of the great mass of white people will not... A universal feeling, whether well of ill formed cannot be safely disregarded.” 128

He recognized the Constitution allowed for slavery, but he did not want it spread:

But, “that furnishes no more excuse for permitting slavery to go into our own free territory, then it would for reviving the African Slave trade.”

“The great moral wrong and injustice (opening up more territory to slavery, would put slavery) on the high road to extension and perpetuity...”128

He argued slavery was contrary to self-government.

“When the white man governs himself that is self-government; but when he governs himself and governs another man... that is despotism.... The negro is a man.... There can be no moral right in connection with one man’s making a slave of another, let know one be deceived...” 128

He connected slavery to the American Revolution:

“Near eighty years ago we began by declaring that all men are created equal; but now from that beginning we have run to the other declaration, that for some men to enslave others is a “sacred right of self-government”. These principles cannot stand together.... Our republican robe is soiled, and trailed in the dust. Let us repurify it. Let us re-adopt the Declaration of Independence, and with it the practices and policy....” 129

Lincoln’s View of Know Nothings:

“of their principles I think little better than I do of the slavery extensions... Our progress in degeneracy appears to me to be pretty rapid. As a nation, we began by declaring that all men are created equal .’ We now practically readit ‘all men created equal except negroes’ When the Know Nothings get control, it will read ‘all men are created equal, except negroes, and foreigners, and Catholics.’ When it comes to this I should prefer emigrating to some country where they make no pretense of loving liberty- to Russia, for instance, where despotism can be taken pure, and without the base alloy of hypocrisy.” 141

Nativist view:

issues of “...freedom, temperance, and Protestantism against slavery, rum, and Romanism.” 137

“You have an important duty to perform tomorrow in the election... Father Mullen and the Jesuits can no longer rule this city... The Irish are... making our elections scenes of violence and fraud... Americans! Shall we be ruled by Irish and Germans? 141

Lincoln’s View of Know Nothings:

“of their principles I think little better than I do of the slavery extensions... Our progress in degeneracy appears to me to be pretty rapid. As a nation, we began by declaring that all men are created equal. We now practically read it ‘all men created equal except negroes’ When the Know Nothings get control, it will read ‘all men are created equal, except negroes, and foreigners, and Catholics.’ When it comes to this I should prefer emigrating to some country where they make no pretense of loving liberty- to Russia, for instance, where despotism can be taken pure, and without the base alloy of hypocrisy.” 141

Temperance Movement 133-134 (connecting to Nativism)

Protestant movement

Anti-Immigrant

Dry Laws/Wets

Nativist attitude:

“It is liquor which fills so many Catholic (as well as other) home with discord and violence... fills our prisons with Irish culprits, and makes the gallows hideous with so many Catholic murders.... The fact that the Catholics of this country keep a great many more grog shops and sell more liquor in proportion to their number than any other denomination, creates and keeps alive a strong prejudice against them.” New York Tribune (1853) 135
