Open edX BTR working group
Meeting notes October 25, 2021 15:00 UTC

Agenda

Maple

- **Support for Gradebook MFE**
  - o **The Gradebook MFE makes undue calls to analytics services**
  - o No longer makes segment calls to analytics remaining calles to ur being worked on
- **[Tutor] Support for master** →
  - o Tested by 2 users users can be tranalated to a beta one release
- **https://github.com/openedx/build-test-release-wg/issues/104** →
  - o An error on redirect logging works and refreshing the page works to recall all items not currently a showstopper for beta 1 release but will need checking
  - o
- **Support for the Learning MFE 1**
  - o This works with tutor and maple but work continues from multiple groups to enable refactoiring for "branding" headers in the learning MFE. Groups to coordinate
  - o Learning MFE does work with with Tutor and with Maple
- **Support Profile MFE**
  - o Works but additional work in the Frontend group will be attempting to make builds and delivery faster and increase brand ability in the MFE systems
- **[Tutor] Codejail plugin should be ready for Maple** →
  - o Merge into master edx for maple as a plugin.
- Kickstart the Release notes
  - o Release notes taken by Peter and coordinate with the edX product team for release notes
- Increased strictness on pr:
  - o This has worked well but needs to continue for future PR and

Lilac.3

- We need to create the tag BUT it would be nice to close some of the outstanding issues. Let pick a date (Next BTR meetup?) as the final deadline for this.
  - o Majority of issues are defined and assigned some will not make cut to ensure the lilac 3 tag which will be done on the 6th of November 2021 regardless of PR status
- **Non-MFE Payment Flow** → Did any discussion take place around the work required for this?
  - o Some investigation took place from @RegisB help is sought on the functionality and setting up eccommerce for additional testing
- **Bulk course emails are rejected by email server because of an invalid "from" address**
  - o Now assigned
- **Bulk email templates contains many edX-specific reference (and are thus unusable)**
  - o DB to contact Ned B to create pr and evaluate work done

AOB Additional volunteers are asked to join the open edX community to help resolve issues
