FOREWORD

⚡△7V□△77

Our Galactic Republic is rapidly approaching a precipice - one which leads down an abyss of which we will not be able to return from. Between you and that ledge stands the Centralists, and our bold platform of reform which will change our Republic for the better! If we are to achieve this change, however, we need your vote - a vote for unity and harmony, instead of the xenophobia and speciesism of the Imperialists; and a vote for order and stability, instead of the chaos and disorganisation of the Seperatists.

In this platform, we aim to provide a vision for the future which will restore the Republic to a time when our galaxy-spanning nation was not ruled by bureaucrats. We will finally offer the Supreme Chancellor the powers they need to achieve true peace and equality. We will reform our Republic, so that it may stand the test of time!

Join us on our path to righteousness by voting for a Centralist candidate in your sector!

Together we stand, but united we rise!

A REPUBLIC OF EFFICIENCY

ᄀ 7Vᄀᄀᄀᄀᄀᄀᄀᄀ ᄀᄀ

Vᄀᄀᄀᄀᄀᄀᄀᄀᄀᄀᄀᄀᄀᄀᄀᄀ

As it currently stands, **our Republic is plagued with bureaucracy**. The primary goal of the Centralists will be to begin cutting down on this overzealousness and awarding the Supreme Chancellor powers they need to ensure a well-oiled nation. To do this, we will **drag the Chancellery away** from the galactic trade conglomerates and special interest lobby groups that hold the ears of our representatives by **making the act of receiving a regular payroll from these bureaucrats whilst in office illegal**. We will also require all major donations be made public via a **Galactic Register of Financial Interests**, which all current representatives and senators must be recorded on.

In terms of general economic advances, we pledge to **invest in internal anti-corruption measures** to further counter the current issues we see in the Government. We will also be implementing **stricter limits and trade taxes on the Trade Federation**, which is rapidly growing out of Republic control, and represents a major threat if it is not curtailed soon.

A REPUBLIC OF VIRTUE

THE COMPLETE ERADICATION OF THE GALACTIC SLAVE TRADE

Before anything else, our Republic must remain moral and just. That is why the Centralists will begin pursuing **the complete eradication** of the constitutionally illegal galactic slave trade, particularly in and around Hutt Space and the Outer Rim. To do this, we will first begin negotiating with the Hutt Council, but, **should this prove to be a failure**, we shall enforce much stricter methods to ensure they bow to our demands.

Access to basic provisions is a right of all sentients of our Republic. To achieve this, we pledge to **explore the nationalisation of major galactic food and agriculture suppliers and distributors**, such as TaggeCo.

To ensure that all citizens have access to a good education, we will set up a **Galactic Education and Mobility of Republic Citizens Scheme** - GEAMORCS. On select worlds, such as Coruscant, a prospective student will be able to travel and learn from any university on any other world under the scheme, whilst only having to pay their respective planetary university costs. This will allow for **a wider variety in university choice across the galaxy**, and encouraging our citizens to learn to achieve whatever they want to achieve.

A REPUBLIC OF MIGHT

7VTCU3EJ11 ΔΔ Λ17E↓

To achieve order in our Republic, we need to **pursue a centralised police force**. To this aim, the Centralists propose the creation of a series of hub stations, at the home star of all major systems. Each hub will be able to service multiple systems via strategic use of the hyperlane network, and will **dramatically improve law and order** throughout the galaxy. These hubs will also be expanded to a national healthcare provider.

We will also begin **expanding the Republic's navy**, to ensure a more streamlined approach to emergency rebel and revolt suppression. To do this, we will **nationalise the military branches of both Republic Sienar Systems and Kuat Engineering**.
