Did you know that the Suncor oil refinery, sitting just north of Denver:

- Emits 14.1 tons of toxic hydrogen cyanide yearly,
- Contributes to the most polluted zip code nationwide,
- Violates its air pollution permits?

Watch this video to learn more & see how you can take action.

Did you know that the Suncor oil refinery, which sits just north of Denver in Commerce City, contributes to the most polluted zip code in the country and an **!** “F” grade air quality **!** — emitting greater than 866,100 tons per year of toxic pollutants into the atmosphere? 😞

Watch this video to learn more about Lucy, an impacted community member, and the ways you can take action to stop Suncor’s continued injustices, or visit: [350colorado.org/suncor/](https://www.facebook.com/113283732058944/videos/766899817363639).

Post 2:

Did you know the Suncor oil refinery emits:

- 14.1 tons of hydrogen cyanide/year **!**
- Sulfur dioxide **!**
- Benzene **!**
- And carbon monoxide?

These toxins spill into neighboring communities that suffer from respiratory infections, asthma, adverse cardiopulmonary events, and death. 😞

Despite their offenses, Suncor continues to ask for increases in the allowable amount of emissions, and repeatedly violates its permits. In a year, Suncor had more than 2,750 certified violations.

It's time to act.  Watch this video to learn more about Lucy, an impacted community member, and the ways you can take action to stop Suncor's continued injustices.
