

Zoom Social Hour Activities for Your Classroom, Family Gatherings, & Friends!

Audience	Idea	Resources
Classroom	Connection Circle	This website has a neat question generator. You can even adjust the “depth” of the questions to be more light-hearted or more serious depending on the age group and familiarity.
	Scavenger Hunt	Create a scavenger hunt list and send students to breakout rooms. The students try to locate everything on the list with what they have available and bring it back to the camera. Great to do this outdoors to level the playing field!
	Show & Tell	Give your Zoom session a theme (like pets, favorite things, or costumes) and invite students to bring something to show the class.
Family Gatherings	Pictionary	This website makes it easy to play this classic game via Zoom. You could also do this with students, just be sure to set expectations regarding school appropriate doodles.
	Charades	Who doesn't love a round of charades with your extended family? This website makes it easy! Share it in the chat and when it is your turn, it's as easy as a click of a button to generate a word or phrase to act out.
	Boggle	Use this website and share your screen. Have participants type all the words they see in the chat or shout them out if playing with a smaller group!
Friends	Scattergories	This website makes playing the classic word game Scattergories easy to do virtually!
	Cards Against Humanity	Note -- this game is NOT one to play with students or your granny, but it is a hoot for friend-groups with a dark sense of humor. This website is free and makes playing remotely easy!
	Taboo	This is a card game that is super fun, but may be a bit challenging for K-12 students. It's a great game to play with your friends to remain social during the shutdown, and this website makes it easy!
