

Daria Sevostyanov – Software Tester (Junior QA)

City: Beer Sheva, Israel Phone: +972539326623
Email: sevostyanovdaria@gmail.com

Education:

2024 – Software Testing Course (QA), SVCollege
2025 to present University studies “Information Systems and Technology”

Technical Skills (QA Studies):

- Writing test documents: STD, STP
- Creating and managing Test Cases in Qase; using Postman
- Running tests: Functionality, Boundary Values, Negative Test
- Writing SQL queries
- Bug analysis in Fiddler and DevTools
- Bug documentation in Jira
- Basic knowledge of HTML
- Proficient in test automation using Python and Selenium

Experience:

During my work (including platform UTest), I applied my skills in writing test documentation (STD, STP), used Qase for creating and managing test cases, and utilized Postman for API testing. I executed functionality, boundary value, and negative testing, wrote SQL queries for data verification, conducted bug analysis using Fiddler and DevTools, and documented found bugs in Jira. My basic knowledge of HTML enabled me to better understand the structure of web applications.

Languages:

Hebrew: Good. Russian: Native. English: Intermediate.
