
Privacy Policy — Zither

Last updated: February 2026

Overview

Zither is a musical instrument app. It does not collect, store, transmit, or share any personal data of any kind. This policy explains in plain terms what the app does and does not do with your information.

Data Collection

Zither collects no data. There are no analytics, no crash reporting, no advertising SDKs, no tracking, and no network requests of any kind. The app does not connect to the internet.

Permissions

Zither requests no special permissions. It does not access your contacts, location, camera, microphone, files, or any other device resource beyond playing audio through the speaker or headphones.

Audio

All sounds are generated locally on your device using audio sample files bundled with the app. No audio is recorded, processed externally, or transmitted anywhere.

Third Parties

Zither does not integrate with any third-party services, SDKs, or APIs. No data is shared with any third party because no data is collected in the first place.

Children

Zither contains no advertising, no in-app purchases, no social features, and no data collection. It is suitable for users of all ages including children under 13, and complies with the Children's Online Privacy Protection Act (COPPA) and similar regulations.

Changes to This Policy

If the app is updated in a way that changes its data practices, this policy will be updated accordingly and the "last updated" date above will reflect that change.

Contact

If you have any questions about this privacy policy, you can contact the developer at:

mookiebearapps@gmail.com

This policy applies to the Zither app on Google Play and any associated app store listings.
