

Directions: Please download and complete this template to create your summary. Summaries should not exceed 2 pages, including references (1-inch margins, 12-point font, double-spaced, references may be single spaced). Questions that should be addressed in each section are included in blue italicized text. Prior to submission, 1) delete these directions and any blue text; headings in black text should remain 2) ensure your summary does not exceed 2 double-spaced pages, and 3) ensure no author information is included in this document. Submit your summary as a word document at [this link](https://ohio.qualtrics.com/jfe/form/SV_bEKvMzFUB2pdKvQ) (https://ohio.qualtrics.com/jfe/form/SV_bEKvMzFUB2pdKvQ).

TITLE

Problem of Practice and Justification for that Problem

Please address these questions: What important problem or issue in the practice of mathematics teacher educators is addressed? What is the justification for attending to this problem and why is it important to do so? To which existing knowledge base in mathematics teacher education does this work connect?

Description of Tool, Method, or Intervention

Please address these questions: What arguments are made for how the interventions or tools address the identified problem? What details are provided to allow for replication or modification of the interventions or tools by subsequent authors?

Methods of Determining Effectiveness

Please address these questions: What questions guided the scholarly examination of the effects of using the interventions or tools? What methods were used to collect and analyze data?

Evidence and Findings

Please address these questions: What claims are made about effectiveness? What evidence supports claims of effectiveness of the interventions or tools? How are claims connected to existing research and/or theories?

Implications for Mathematics

Please address these questions: What specific new contribution to our knowledge is made explicit? How can this study inform or influence the shared problem of MTEs' practice?
