

Self Assessment: Developing and Organizing Ideas

To access this as a Google Form, click [HERE](#)

Learning Goals:

- I can reflect on the strategies and tools I used to develop and organize content for text
- I can set goals for future improvement as a text creator

Success Criteria:

- I have reflected on what strategies and tools I used
- I have identified what strategies and tools were helpful
- I have suggested steps for future improvement as a text creator

Name: _____

Date: _____

When planning, gathering information and organizing content for creating text, I...	Not yet	Sometimes	Almost Always
choose an appropriate medium to suit the purpose and audience.			
generate and develop ideas (i.e. brainstorm, mindmap), drawing on various resources.			
conduct research to gather information and content relevant to a topic.			
evaluate the currency, quality, bias, reliability, and accuracy of information.			
cite the sources of all content created by others.			
organize content (using graphic organizers, or by classifying/sequencing ideas).			
evaluate the choices of text form, genre, and medium chosen, and consider alternatives.			
Reflect on Learning: Which strategies and tools used to develop and organize content did you find helpful?			
What goal did you set for yourself on the last Self-Assessment ? Comment on your progress.			
Set yourself a new goal for future improvement.
