

„Into Fresh Air“ - flexible outdoor game by [Loquiz](#)

The goal of the game

Into Fresh Air game is a flexible and engaging outdoor game that you can play anywhere! The idea is that teams move outdoors to activate tasks after passing a certain amount of meters. Task will get activated by the odometer activation.

The aim of the game is to climb up to 20 mountains around the world. To succeed, the player needs to give correct answers for the tasks, and as fast as possible! Tasks are mathematics. After the answer, they get to know more about the mountains around the world.

Why this game is cool?

1. flexible
2. no need for a set up for pins
3. possible to play anywhere outdoors
4. can be played alone, but suitable for any size group to several hundreds of participants
5. easy to explain to players and briefing time is short
6. does not need extra props to conduct the game

NB! Feel free to use this template for your own flexible outdoor game by changing tasks (make sure there are 22 tasks) and game length.

Why would you want to implement Into Fresh Air in your event company?

- Has a clear and exciting goal to “climb mountains”
- Suitable for out-of-office events, team-work sessions, family and individual activities, summer days and birthdays
- The game is easy to modify, so it is very suitable for corporations wanting to add their own tasks to the game and/or needing the game in a special location
- The game can be easily played anywhere outdoors
- Your instructors will love it for the simplicity

How to market and sell the game?

Below is a sample marketing text you can use to promote „Into Fresh Air” for your client. Modify the text to your needs and add your special touch to it!

*****Coming soon:** photos, screenshots and editable ppt presentation to promote the game.***

Into Fresh Air game is a flexible outdoor game that can be played anywhere at the same time. Players or teams need to move outdoors to activate tasks. The task will appear on the device' s screen after the player has passed a certain amount of meters.

The focus of the game is to climb up on 20 mountains around the world which locations you see on the map. Naturally, you can not go to all of these locations to activate tasks, but you will reach almost on top of the mountain (get the tasks) by moving around outdoors. Every 50 to 100 meters should give you one task.

An idea about points that players can collect is depending on answering speed adds spice to this game.

We will:

- *organize the game for you at any place you need - a city or the countryside*
- *insert your company-specific content to the game if you wish*
- *to fit your agenda with start and finish times and places*
- *act on very short notice*

How to make the game?

You can start off by copying the game “Into Fresh Air” from Games Market to your account and editing it if you wish.

- You can always change the game according to the wish of your client.

How to test the game?

BRIEFING PLAYERS

Usual introduction of yourself.

Today we are going to play a game called „Into Fresh Air”. It is a flexible and engaging game that involves moving around the environment to conquer mountain peaks. To make the competition more fun, we will divide you into teams.

Divide people into random teams by the fun method of your choice

<https://loquiz.com/blog/2015/11/divide-into-groups/>

Your task is to climb up on 20 mountains around the world which locations you see on the map! Naturally, you can not go to all of these locations to activate tasks, but you will reach almost on top of the mountain (get the tasks) by moving around outdoors. Every 50 to 100 meters should give you one task.

Getting up to 20 mountain peaks will need approximately 1,5 km to walk

How many mountain peaks you conquer?

You will see how many points you collect.

NB!

- points are collected only when giving a correct answer for the task
- note that points amount depends on answering speed

NB! Make sure to follow traffic and safety rules.

Game variations

There are a couple of cool ways to set up the game so it might suit your needs better than the main version.

- a) For changing the content (tasks) in the game go to “2.RULES” and delete unneeded tasks and add new tasks that you want (make sure there are 22 tasks). Notice that the order of the task is connected with the task, that is in the rule block!

The screenshot displays the 'INTO FRESH AIR' game configuration interface. On the left, a world map shows various mountain peaks marked with icons and names. Below the map is a list of 22 tasks, each with a unique ID and a mathematical expression. The tasks are: 1. $10 \div 2 + 7$, 2. $10 \div 2 - 11 + 7$, 3. $1 + 1 \times 2 + 7$, 4. $2 - 8 \times 2 - 1 + 7$, 5. $2 \times 2 + 1 + 7$, 6. $1 \div 10 \times 2 + 7$, 7. $5 \times 20 \div 5 - 10 + 7$, 8. $6 \div 6 \times 2 \div 2 + 5 \div 5 + 7$, 9. $4 \div 2 + 7$, 10. $(3 - 1) \times (2 + 2) + 7$, 11. $15 \div 3 \times 2 + 7$, 12. $55 \div 5 + 2 + 7$. The right side of the interface shows a visual programming editor with a sequence of 'when' and 'then' blocks for each task. The 'when' blocks are 'odometer (m)' and the 'then' blocks are 'open'. The tasks are numbered 1 through 22. A red arrow points from the '1. Scaleli Pike' task in the task list to its corresponding rule block in the editor. The editor also shows a 'finish' block at the end of the sequence.

- b) You can make teams visible to others while playing the game. Activate “All players see other players on the map” on the configuration page (Cooperation tab). Activating “Allow chatting” on the configuration page (Cooperation tab) gives players an opportunity to contact each other in the game.

c)

d) Task activation will happen between 50 to 100 meters. If you do have Creator PRO subscription you can modify this and other rules. You just need to change the meter's number in odometer (m) rule block under "2. RULES" tab.

Game logo

You can use the Into Fresh Air game logo which you can find under the following weblink. Add the logo under configuration page to upload this image :)
