🌿 Lesson #15A

🕒 Total Duration : 00:29:01

In previous lessons, we studied the angels in general. Today, however, we will specifically study the relationship of the angels with the believers.

🌸 Angels love the believers and they pray for their forgiveness and ask Allah SWT to send blessings on them. They help, assist and guide the believers in their efforts to do good deeds.

🌸 Angels love whom Allah SWT loves. When Allah SWT loves someone, He calls the angel Jibreel AS and tells him that He, Allah SWT, loves so and so. Then, Jibreel AS starts loving him/her. Then, Jibreel AS calls the angels and tell them that Allah SWT loves so and so. Therefore, they too start loving that person.

🌸 Angels are well-wishers of believers. When Prophet Muhammad ﷺ went to Mi'raj, he said "I did not pass by any group of angels on the night of Al Isra', except that they said to me: "O Muhammad ﷺ, tell your nation to do cupping"."

🌸 Angels lower their wings for a believer when he/she goes out to seek knowledge. Some scholars say that out of respect for such a person the angels do not fly over him/her, but they shield him/her from all harm.

🌸 The angels pray for the believers who are engaged in certain types of activities, like:

◆ If a person is teaching good things, (according to a Hadith) the angels, and all the inhabitants of the heavens and earth, pray for him/her - even the ants in their holes and fishes in the water send their blessings on him/her.

◆ The angels pray for those who stand in the first row in the congregational salah. They also pray for those who fill the gaps in the rows.

♦The angels pray for those who eat sahoor before fasting.

♦The angels pray for those who send blessings on Prophet ﷺ.

♦The angels guard the person who goes out in the cause of Allah SWT.

♦The angels pray for those who visit the sick. If a person goes out to visit the sick in the morning, 70,000 angels accompany him/her and pray for him/her till the evening. If a person goes out in the evening to visit the sick, 70,000 angels accompany him/her and pray for him/her till the morning.

🌸 When a person makes a dua for another person, the angels make the same dua for that person. Therefore, one should never make a bad dua like 'may some ill fall on a person' because the angels will make the same dua for the person making the dua.

🌸 Angels say Ameen to the duas of a believer.

🌸 Angels who carry the throne of Allah SWT praise Him. They also seek forgiveness for the believers, pray for their protection from sins and trials, ask for strength when they're falling, strength to obey Allah SWT and also for their protection from the hardship of qiyamah.

🌸 When a person recites the forth kalimah ten times after Maghrib, Allah SWT appoints angels with weapons to guard him/her till the morning.

🌸 When a person goes out to do something good, the angels accompany him/her with a flag and protect him/her till he/she returns home but when a person leaves home with bad intentions, then a shaitan with a flag accompanies him/her till he/she returns home.

🌸 The angels also guard some sites like the angels will guard the cities of Makkah, Madinah and Ash Sham (Syria, Jordan, Palestine) at the time of Dajjal. Neither the plague nor the Dajjal can enter these cities.
