

Right now, 14 million kids across the country are struggling with hunger. This has a long-term, negative impact on their ability to learn, stay healthy and grow up strong. This year, more than ever, kids will need the healthy food provided by school meals, whether they're learning in the classroom or in their homes. During the pandemic, free and reduced-price school meals can help ensure kids get the food they need in order to excel academically. Contact your school today to find out how to apply for this benefit.
