

Privacy Policy

The software application (the "App") utilizes end-to-end encryption to provide private messaging to users worldwide. Your messages are always encrypted, so they can never be shared or viewed by anyone but yourself and the intended recipients.

Information you provide

Account Information. You register an email when you create the App account. Emails are used to provide private messaging to you and other App users. You may optionally add other information to your account, such as a profile name and profile picture. This information is end-to-end encrypted.

Messages. The App cannot decrypt or otherwise access the content of your messages. The App queues end-to-end encrypted messages on its servers for delivery to devices that are temporarily offline (e.g. a phone whose battery has died). Your message history is stored on your own devices.

Additional technical information is stored on our servers, including randomly generated authentication tokens, keys, push tokens, and other material that is necessary to transmit messages. The App limits this additional technical information to the minimum required to operate private messaging.

User Support. If you contact the App User Support, any personal data you may share with us is kept only for the purposes of researching the issue and contacting you about your case.

Managing your information. You can manage your personal information in our App. For example, you can update your profile information.

Information we may share

Where the App may need to share your data

- To meet any applicable law, regulation, legal process or enforceable governmental request.
- To enforce applicable Terms, including investigation of potential violations.

- To detect, prevent, or otherwise address fraud, security, or technical issues.
- To protect against harm to the rights, property, or safety of Signal, our users, or the public as required or permitted by law.

Updates

We will update this privacy policy as needed so that it is current, accurate, and as clear as possible. Your continued use of our app confirms your acceptance of our updated Privacy Policy.
