

DFGamer's Staff Portfolio

Details:

Age: 16

Location: Australia

Discord: DFGamer#0940

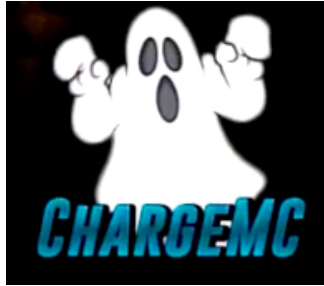

MC-Market: DF Gamer

Strengths:

- Network/Server Moderation (In-game chat moderation, gameplay moderation, Discord moderation, forums moderation).
- Management (Community management, staff recruitment and management, configuration, document creation)
- Discord Server + XenForo setups.
- Java Development

Experiences:

- **ChargeMC** July 2016 - December 2018

Highest Achieved Rank: Owner

Responsibilities: Server development, staff management, advertisement management, and much more.

Average/Peak Player Count: 20/50

Reason for leaving: ChargeMC was shut down by myself due to a lack of funds in addition to loss of motivation to keep the network running.

ChargeMC is a network that I ran for over a year. It went through many different game modes, staff teams and player communities. Overall, it may as well have been 5 different servers, but every time I redid the server/network, I kept the same name.

Below you can find links to gameplay from other people on YouTube of ChargeMC. The 2018 prison release was by far the most successful era of ChargeMC.

February 2018 Prison Trailer: [Click Here](#)

- **LuckySkyblock** February 2017 - April 2017

Highest Achieved Rank: Moderator (Mod)

Responsibilities: Chat moderation, gameplay moderation and forums moderation.

Average/Peak Player Count: 250/400

Reason for leaving: I decided to focus more of my time in developing my own Network, ChargeMC.

LuckySkyblock (also known as LuckySB), was a Skyblock server featuring lucky blocks. It was owned by popular YouTuber Target3DGaming, and had multiple other popular YouTubers play on it; FitMC (1.3mil), BeckBroJack (2.4mil), and many more.

- **DestricMC** July 2020 - August 2020

Highest Achieved Rank: Moderator (Mod)

Responsibilities: Chat moderation, gameplay moderation, Discord moderation and Discord ticket support.

Average/Peak Player Count: 150/350

Reason for leaving: DestrucMC was put on standby (no update since) by the Owner due to issues relating to the servers gameplay. The excessive bug complaints were too much thus the decision was made.

DestrucMC was a factions server which I truly put a lot of time and effort into. My promotion from helper to moderator was the fastest ever seen on DestrucMC (less than a week). I also received staff-of-the-week in the first week that I was accepted onto the staff team. I by far answered and resolved the most Discord support tickets (roughly 30 a day).

- **Among Us Discord Server** October 2020 - Present

Rank: Helper

Responsibilities: Text chat moderation, voice chat moderation, ticket support and handling reports.

User Count: 210,000+
