Subject: “The \$20 ‘robot assistant’ that built 5 income streams for me”

Preview: You’re about to see exactly how it works—no hype, just results.

Hey [First Name],

If you could hire an assistant who works 24/7, never complains, and costs less than a gym membership... would you do it?

That’s exactly what I did. Except my assistant isn’t human.

It’s Artificial Intelligence, or AI for short.

With the right prompts and a few free tools, I built multiple online income streams in weeks—not months.

Now my friend **Bill Davis** has packaged this into the **AI Hustlers Playbook**—showing *multiple* ways to make money using AI, starting from scratch.

👉 Here’s why I’m excited:

- **No tech overwhelm**—simple tools you can learn in a weekend.
- **Beginner-friendly**—no audience, no product, no problem.
- **Proven paths**—real case studies, real numbers, real people.

You’ll see exactly how to turn AI into an income engine... and you might just wonder why nobody told you sooner.

Email 2 – Education & Value

Subject: “The fastest way I’ve seen to build an audience with AI”

Preview: No filming. No writing marathons. No big budget.

Hey [First Name],

I want to give you a sneak peek into one of the AI Hustlers Playbook's methods—**AI Content & Automation**.

This is how regular people are:

- Writing entire blog posts in under 30 minutes.
- Creating YouTube videos without showing their face.
- Turning one piece of content into *dozens* of social posts automatically.

The best part? AI tools handle 80% of the work—you just guide them.

When you see how simple it is in the **AI Hustlers Playbook** from Bill Davis, you'll realize:

You *can* build an audience without grinding for months... and that audience can fuel *every other income stream*.

Email 3 – Problem & Solution

Subject: "Hate selling? Let AI do it for you"

Preview: How to set up income systems that run without you.

Hey [First Name],

Some people love sales. I'm not one of them.

But here's what I *do* love:

- Systems that make offers 24/7.
- Email lists that grow automatically.
- Affiliate commissions that show up while I'm asleep.

That's why I'm obsessed with the **AI Affiliate Funnel** method from Bill Davis's AI Hustlers Playbook.

You'll learn how to:

- Pick high-paying affiliate products.
- Build lead magnets and landing pages in minutes with AI.
- Write persuasive emails (also with AI) that run on autopilot.

This isn't theory—there are case studies of people making \$3k–\$5k/month without ever creating their own product.

Email 4 – The Vision

Subject: “What if your business ran itself?”

Preview: The AI + automation combo that changes everything.

Hey [First Name],

Imagine this: A new lead comes in. They get a welcome email. Your CRM tags them. A follow-up is scheduled. They see your offer. They buy. You deliver.

You never touched a thing.

That's the **AI Microservices & Automation Systems** method from the AI Hustlers Playbook by Bill Davis.

Small, simple automation setups you can sell to local businesses, coaches, or online creators—with AI doing the heavy lifting.

- You build it once.
- You sell it again and again.
- You can even charge monthly for maintenance.

This is how people are replacing their full-time income without taking on dozens of clients.
