

Profitable Productivity Intensive (PPI) – Program Overview

Thank you for your interest in the **Profitable Productivity Intensive (PPI)**. If you're a business owner who's working too many hours, handling too many decisions, and constantly troubleshooting instead of leading, this program was designed for you.

Below, you'll find everything you need to know about what PPI is, who it's for, what to expect, and why it works. If you have any questions, just email me.

[if you want the short version . . . scroll until you see this color 😊]

What is the Profitable Productivity Intensive?

PPI is a high-level, small-group forum (max 6 business owners per cohort) where we tackle real business challenges in real-time with people who understand exactly what you're dealing with.

This isn't a course. It's not traditional coaching.

There's no set curriculum, no generic strategies, and no theory.

Instead, we meet weekly for 4 weeks, for 90-minute, fast-moving conversations where business owners:

- ★ **Troubleshoot their biggest challenges** with a group of peers who get it
- ★ **Pinpoint the real obstacles holding them back**—not just the ones they *think* are the problem
- ★ **Get actionable strategies for time management, delegation, team efficiency, and operations**
- ★ **Walk away with immediate solutions** they can implement right away—no more trial and error

This is where real conversations happen.

Many business owners feel alone at this level.

Employees don't understand the pressure of running a business. Friends and family don't know what it takes to lead a team. Most programs are either too structured to solve real problems or too generic to make a difference.

That's why PPI exists—to give business owners a room full of people who understand, troubleshoot together, and make faster, smarter decisions.

PPI starts April 9th. Investment \$750. Apply here:

Who is PPI for?

PPI is for established, service-based business owners who:

- ★ Have been in business at least three years
- ★ Have 10 or fewer team members
- ★ Are ready to move to the next level without working more hours
- ★ Want to troubleshoot with other business owners who are scaling and refining their systems
- ★ Are willing to shift how they run their business—not just work harder

This is for business owners who know they need better systems, stronger leadership, and more efficiency—but don't want to waste months guessing at what will actually work.

Who is PPI *not* for?

- ❌ **Startups or solo entrepreneurs** without a team
- ❌ Business owners looking for **step-by-step training or a structured curriculum**
- ❌ People who **aren't open to new ideas or changing how they operate**
- ❌ Those who want a **passive learning experience instead of an interactive, solution-focused discussion**

If you just want a productivity course or someone to tell you what to do, PPI isn't the right fit. (*I have other programs for this, just ask!*) But if you're ready to work alongside other experienced business owners and make real changes, you're in the right place.

The Benefits of Joining PPI

- ★ **Stop spinning your wheels**—get real solutions from business owners who've already solved these challenges

- ★ **Eliminate bottlenecks**—fix inefficiencies in your business that are costing you time and money
- ★ **Shift from being the problem-solver to the CEO**—lead at the level your business demands
- ★ **Cut through trial and error**—implement proven strategies instead of wasting months testing what *might* work
- ★ **Join a high-level network**—connect with business owners who think at your level and are serious about growth

Most business owners think they have a time problem... but in PPI, they realize they've been solving the wrong problems.

PPI starts April 9th for 4 weeks. Investment \$750. Apply here:

Common Business Problems We Solve in PPI

- ★ You're stuck answering your team's questions instead of focusing on high-level strategy.
- ★ You're still working more hours than your employees and need a path out of daily operations.
- ★ You've "delegated," but things keep coming back to you because the work just isn't very good
- ★ You keep tweaking your schedule, but time management isn't actually the issue—it's business structure.
- ★ You're running your business the same way that got you here—but now, you need new strategies to grow.

Inside PPI, you'll walk away from every session with clear, real-world solutions to challenges similar to this.

Frequently Asked Questions

Q: What's the format of the sessions?

PPI is a live, interactive discussion—not a structured lesson or presentation. Business owners share challenges, get direct feedback, and leave with solutions they can implement immediately.

Q: Is there a community space between sessions?

Right now, there is no dedicated group (Slack/Facebook), but members often connect and continue discussions on their own.

Q: What if I can't attend all four sessions?

Because PPI is a live discussion, there are **no recordings** to protect confidentiality. If you miss a session, you miss the conversation—but we encourage you to attend as many as possible.

Q: What's the biggest misconception about PPI?

Many people assume this is a coaching program or a structured course—it's not. PPI is a collaborative problem-solving forum. You're not getting a one-size-fits-all system—you're getting direct, real-time solutions to the exact challenges you're facing.

Q: What's the most compelling reason to join now?

We're limiting the group to **just six business owners** to keep the conversations focused and valuable. Once spots are filled, they're gone.

Is PPI Right for You? Apply Now.

If you're **tired of figuring this out alone**, wasting time on trial and error, and **want to solve the real problems holding your business back**, PPI is the room you need to be in.

PPI starts April 9th for 4 weeks. Investment \$750. Apply here:

The business owners who grow the fastest are the ones who surround themselves with the right people. This is that room. Don't miss it.

Short version PPI

What is PPI?

The Profitable Productivity Intensive (PPI) is a high-level, small-group forum (max 6 business owners per cohort) where real business challenges get solved in real-time.

This isn't a course or coaching program—there's no curriculum, no fluff, no generic strategies. Instead, each of the four sessions is a fast-moving, solution-focused conversation where business owners:

- ✓ Troubleshoot their biggest business challenges
 - ✓ Pinpoint the real obstacles—not just the ones they *think* are the problem
 - ✓ Get actionable strategies for time management, delegation, team efficiency, and operations
 - ✓ Walk away with real solutions they can implement immediately
-

Who is PPI For?

PPI is for established, service-based business owners who:

- ✓ Have been in business at least three years
- ✓ Have 10 or fewer team members
- ✓ Are ready to step out of daily operations and scale efficiently

If you're still handling too many decisions, answering your team's questions, and working too many hours, this is for you.

What You'll Get from PPI

- 🔥 Stop spinning your wheels—get real strategies from business owners who've solved these challenges
- 🔥 Cut through trial and error—implement proven solutions instead of wasting months testing what *might* work
- 🔥 Fix business inefficiencies that are costing you time, money, and growth
- 🔥 Shift from being the go-to problem solver to a CEO leading a team that operates without constant input

Each of the four, 90-minute sessions is a live, interactive discussion (not a pre-recorded lesson) where business owners work through real problems together and walk away with immediate solutions.
