

Grant Submission Guidelines Partisia Blockchain Foundation

Thanks for showing interest in building on Partisia Blockchain! The following will help you understand the process and requirements for submitting your grant proposal.

How to Apply

Application process is simple. The challenging, but rewarding, part is coming up with the idea to utilize Partisia's value proposition of privacy, interoperability, and scalability and tie that into a working business model. If you need help with any of the questions, technical implementations, or to brainstorm ideas, please reach out to us on our [discord server](#) using the #dev-support ticket function, or review our development documentations on [Medium](#) and [Gitlab](#).

Below are the details in the grant proposal we would expect to see. Please ensure you fill every question out as detailed as possible. Once complete, submit it by emailing us at build@partisiablockchain.com. **PLEASE NOTE: We are currently only giving out \$MPC tokens for grants.**

1. What is the core problem you are solving? Be specific on the user's pain point.
2. How are you solving this problem? Please list functions, components and artifacts.
3. How does it fit with Partisia Blockchain's core value propositions of programmable privacy, interoperability and scalability? What part of the Partisia blockchain will you be using?
4. What is the financial model of your business? Please describe how transaction costs will be funded, number of transactions you expect to add (monthly) to the blockchain and your revenue stream through your system.
5. Please describe your growth plan in detail. How will you grow your ecosystem? Do you have existing partnerships?, etc
6. What is your funding request and how will you use the funds? Please define your roadmap and milestones with funding requirements. Please include KPI as a part of the milestones. (Expected TPS, user base, etc)
7. Introduce your team with name, role, email address and any other contact details, social media links and website. If you have samples of what you built before, please list them.
8. Please list any other grants, raises and/or projects you either have had or currently engaged in

Below is a **template** you can use to make sure you are submitting a fully crafted project proposal. Including diagrams is highly recommended.

Template of a fully crafted proposal

Hi, my name is [name] and I am submitting a proposal on behalf of [entity]. Our site is [url]

Here are the details of our idea/project, what we have delivered in the past, and our motivation for building on Partisia.

Project Proposal and Funding Request

- *Our idea is [] and It will solve this problem [] It will use [] aspects of Partisia.*
- *Our business model flows this way [], including how transaction gas will be funded and how our revenue stream will work. []*
- *Here is our growth plan, with milestones. [] These are our current and/or future partnerships we have and how they will contribute to our growth. []*

Example:

Our roadmap is split into XXX major milestones and it takes XXX months to build XXX MVP. It takes XXX months to reach each sequential milestone:

Milestone 1 (+... months): Tokenization (NFT creation, lifecycle, and locking in borrowing pools) and borrower (Factor) interface;

Milestone 2 (+... months): Lending (stablecoin lending and issuance of ERC20 share of the pool) and Liquidity Provider interface;

Milestone 3 (+... months): Repayment, XXX rewards, interface for Referral Partners, and compilation of Liquidity Provider and Tokeniser interfaces.

- *Here are the technical details on how it will work [] Attached are the artifacts/design diagrams*
- *We are also attaching our artifacts and design documents []*
- *Our total funding request is \$[] and the plans for the usage of the fund is broken down here (marketing \$[], development, \$[] QA, \$[] etc)*

Example:

Name	Role	Milestone: 1	Milestone: 2	Milestone: 3	USD/Month
Vadim	Product Owner	Full time	Full time	Full time	\$...
Mark	UX/UI & front-end	Full time	Full time	Full time	\$...
George	full-stack (NodeJs, Rust)	Full time	Full time	Full time	\$...
Ruslan	smart-contract (Rust)	Full time	Full time	Full time	\$...
Denis	Marketing	Full time	Full time	Full time	\$...

- Here are our project plan milestones for this initiative with when funds will be needed. We are also including our expected TPS/Users as a part of the KPI and integrating it to the funding request. Milestone x - Metrics \$[]
- We currently have/have not received other grants from different sources. Here are the details around it and the current status. [] The following are additional projects we are working on []

Our experience

- Our past experience is with the following language []
- Our past projects were [] and you can find it or read more about it here. []
- We are open source and you can find our repository here []
- Here are some references you may reach out to []

Our team

Our team consists of the following [name, email, social media links, role in the team]

Thank you for your consideration!

What is a grant?

You are requesting funds to help build your dApp using Partisia Blockchain services. There is mutual benefit and we will fund your idea for your app that uses Partisia Blockchain. It is not for developing a dApp for Partisia Blockchain.

How does the grants program work?

Once you submit your proposal, we will review and reply back within 5 business days. If there are questions or clarifications we feel are needed, we will reach out to schedule a meeting or iterate through email.

We will then work with you to review and make any modification as needed, define milestones and payment options and make an assessment of your project as a whole. If you are awarded the grant, we will then work with you to provide support, technical guidance and project management oversight to the completion of the project.

Why Apply to Build with Partisia Blockchain?

- Work on technologies that are truly unique and meaningful in the blockchain industry
 - Opportunity to work with the creators and pioneers of ZK/MPC
 - Be a part of an organization and community that believes in supporting your growth
 - Get your business funded!
-
