

Dear Prof. Hawat,

I am writing to you to seek your advice on opportunities for guest lecturing.

I am a PhD researcher and I would love the chance to provide a guest lecture so that I might gain some invaluable teaching experience during my studies. As the coordinator of the undergraduate programme I thought that you might be able to put me in contact with any lecturers who you think might be interested in hosting a guest lecture. In particular, I thought that the students in MU-7238-Mathematical-Modelling led by Prof. De Vries might be interested in hearing about my research which involves developing mathematical models of water distribution systems.

Thank you for considering this request and I look forward to hearing from you.

Kind Regards,

Alia
