

TEAM 8 : Green / Cat / Lemon

Write below your ideas on the game you want to make in your team :

- The game should be a board game / a card game

- It has to be related to science

Discuss all together

Dear partners

We have an idea:

L Pursuit Science

Is the same that the original trivial but with the name changed and only questions about science.

Yeah why not ? we have another idea.

A memory with famous scientists

It's the famous game "Memory" with few changes. The goal of the game is to find and link the scientists with their inventions.

Ok its good idea! That game is so original!

So what game are we going to make ? We need to start quickly because we don't have a lot of time.

This is easy. We can put trivia, because is more challenging.

Hey we are lemon team ,we liked your ideas ...

Ok, thanks.

Let's make memory's rules:

32 cards (16 inventions cards and 16 scientists cards)

The goal of the game is at the top :)

1 point per link

You must have 4 points to win

It's not an original game, just a simple memory x)

Our teacher thinks that it's not hard enough

So let's change the idea

Bet for science or Nobels war

The
