

TEACHER SPOTLIGHT: Sra. Mueth

By: Savannah Servos

The lives of countless students and staff have been touched by the incredible Sra. Mueth. After teaching for 34 years total, Belleville East is lucky enough to have her for 33 of them. Many students appreciate her ability to be real with them and her respect for them as more than just kids. To anyone looking for advice on how to bond with students, she states "Just remember that these are young people that are going to make mistakes so just try to see the good in them and help them learn and improve". With this mindset, her connection is seen as friendly while also being an incredible instructor.

Sra. Mueth teaches Spanish, predominantly 3rd year. She has a mix of honor and regular classes, and in both she is able to explain concepts in different ways to give students what she describes as a "light bulb" moment. Being a fan favorite gives her the pleasure of having former students come back with fond memories, and she even has some of her earlier students teaching at East now!

Favorite hobbies of hers consist of watching her son play baseball, shopping with her daughter, and doing calm things like yoga and reading. She used to direct the Spanish Club, but for her last year she has decided to step down and give other teachers a chance to take over while she is still just across the hall for advice. For her last year, Sra. Mueth says she wishes to "enjoy each day to its fullest".

If you were lucky enough to get to know Sra. Mueth, or have her as a teacher, know she was more than happy to do what she loves, teaching, at Belleville East. She states, "I love the freedom that I have at East to teach what I feel is important and the way that I feel is best".

Congratulations on your last year of teaching Sra. Mueth, we all hope it's a magnificent one!
