Three folders, three text lists. **Match the text to the folder**. I Won't text on a Thirst Trap clip (or any other mismatch) gets rejected.

FOLDER 1: I WON'T REQUIRED

Clips from this folder run with Kameron's song **I Won't** underneath, and the on-screen text plays on heartbreak and discovery.

Sound	Add this sound: TikTok · Instagram · YouTube
Audio mix	Clip audio stays up front . Sound goes underneath, turned way down.

⚠ Attach the official sound, but keep it super low. The clip's own audio must be clearly heard over it.

Thirst Trap is a caption style, not a song. Every clip in this folder gets on-screen text about how good Kameron looks: the voice meets the face, the glow up, the double take.

The voice meets the face	he used to just be a voice to me i knew he sounded good but WHO KNEW HE LOOKED LIKE THIS i knew the voice was gonna get me... not the face came for the voice, stayed for the face nobody warned me the man behind the voice was THIS FINE the voice had me listening. the face has me STAYING i fear the face card matches the vocals when the singer is actually hot too POV: you finally see what the voice looks like he sounds like THAT and looks like THIS???
The glow up	the glow up needs to be studied oh he had a GLOW UP glow up not him entering his hot era kameron really said character development he's been getting hotter and nobody told me the way he leveled up??? when did kameron get this fine
Reaction	kameron marlowe??? hello??? why is he suddenly so... country music's hottest plot twist me realizing kameron marlowe looks like this
