

# HUSSEY ARMOUR

## ARMOUR DESIGN WORKSHEET

What are the differences between these two armours?

What kind of person do you think each armour might have belonged to?

## STEP ONE

In pairs or small groups, design armour for a peasant, imagining their limited resources.

## STEP TWO

Now design armour for a commander who would have more resources and therefore protection.

## STEP THREE

If you have completed the lesson on the Irish Skein, you may also want to design armour for an Irish Virago keeping in mind their different fighting tactics.
