MIDDLE SCHOOL SUMMER ASSIGNMENTS 2019

Introduction to Summer Assignments

Grades 6-8

The titles on the following pages have been selected as required summer assignments in the designated courses. The selections were made based on the curriculum for these courses. Some reading assignments present mature subject matter and have been so identified in the annotation. Parents are encouraged to read these selections along with their child or prior to their child's reading the book. Parents who have any questions or concerns about summer assignments should contact the appropriate administrator listed below.

For reading assignments, students may choose to borrow the books at the public library or to purchase the books for themselves. If students are unable to locate the required books, they should call the principal who will assist them in acquiring them.

When students return to school in September, they will be asked to participate in activities based on the summer reading. One of the most important goals of the summer assignment program is to engage students in activities that will prepare them for upcoming curriculum in the new school year. To this end, students should complete the assignments carefully and reflect on what they are reading so that they are well positioned to reap the most benefit from their educational program.
