Dear Dad,

I wish you Merry Christmas, dear dad and also Happy New Year. I am grateful for the way you are raising me. You are the one who had led me from the journey of infancy to adolescence. You are the best pal in my life with whom I share all my thoughts.

You are the pillar of strength for me and you are the one who stand by me in all the ups and downs that I go through. You are the light of my life. Your guidance or suggestion has helped me in every respect of life.

Really, it would be difficult for me to lead a life without your support! You have always taken care that I do not suffer much!

You have spent so many days besides me when I was admitted in the hospital due to measles. Really, I will not forget the way you took care of me in every respect! Really, you are greatest treasure for me. I am thankful for the gifts you give to me during Christmas and birthdays.

I preserved all of them in the wardrobe. Yet, you told that the greatest gift is the love and bonding that you share with your family members and everyone.

You are the one who taught me to be patient and always pray to God, read Holy Bible and go to Church and help in God's service.

I will follow you for whatever you say, dear dad. I cannot imagine a single day without you. It is really lovely to see the Christmas decoration that you have done for everyone!

Dad, you are really the source of happiness, peace and love! May you always be with me like a friend, philosopher and guide! I will always remain obliged towards you! I need your blessings on this Christmas!

Wish you dad! Merry Christmas and Happy New year!

With Love and Respects

From

Son/Daughter
