

Myths

1. **Myth:** Gifted kids never need help because they know everything.
 - **Reality:** Gifted kids sometimes need help, too, and they can benefit from extra challenges and support.
2. **Myth:** Gifted kids always get straight A's without trying.
 - **Reality:** Even gifted kids can find some subjects hard and may need to work hard and get support.
3. **Myth:** Gifted education is just about giving harder homework.
 - **Reality:** Gifted education helps kids think deeply, be creative, and develop new skills, not just do harder work.
4. **Myth:** All gifted kids are good at everything.
 - **Reality:** Gifted kids can be amazing at some things and need help in other areas, just like everyone else.
5. **Myth:** Gifted kids don't need any special teaching because they are already smart.
 - **Reality:** Gifted kids often need different kinds of teaching to stay interested and keep learning.
6. **Myth:** Gifted kids always get along well with others and don't have social problems.
 - **Reality:** Gifted kids can have social and emotional challenges and might need support to navigate these.
7. **Myth:** Gifted programs are only for a select few and are unfair to other students.
 - **Reality:** Gifted programs help advanced learners but also work to make sure all students get the support they need.
8. **Myth:** Gifted kids don't need any changes to their schoolwork.
 - **Reality:** Gifted kids sometimes need different or extra work to stay engaged and challenged.
9. **Myth:** You can only be gifted if you have a really high IQ.
 - **Reality:** Being gifted isn't just about IQ; it can also include creativity, problem-solving, and other talents.
10. **Myth:** Gifted education is just an extra and not really needed.
 - **Reality:** Gifted education helps kids use their talents and stay excited about learning, which is very important.

Realities

1. **Reality:** Gifted kids often need extra help and challenges to keep learning and growing.
2. **Reality:** Gifted kids might struggle with some subjects and need to work hard, just like everyone else.
3. **Reality:** Gifted education includes fun projects, creative thinking, and special activities, not just harder homework.
4. **Reality:** Gifted kids can have different strengths, so they might be really good at some things and need extra help with others.

5. **Reality:** Gifted kids benefit from special teaching that helps them stay interested and excited about learning.
6. **Reality:** Gifted kids might have social and emotional needs and can use extra support to help with these.
7. **Reality:** Gifted programs are designed to help advanced learners while also making sure all students get what they need to succeed.
8. **Reality:** Gifted kids often need special work or activities to stay challenged and motivated.
9. **Reality:** Giftedness can show up in many ways, like being creative or solving problems, not just in a high IQ score.
10. **Reality:** Gifted education is important for helping kids develop their talents and keep them excited about learning.
