Other great places that are in Vegas or close to Vegas are:

Nelson's ghost town: an abandoned city just outside of Vegas that has incredible looking old Wild West type buildings and other relics

El Dorado Dry lake bed: great place for iconic desert themed photo shoots. On the way to California just outside of Vegas, the dry lake beds are one of the best spots for most any type of shoot.

Battle field Las Vegas: if you are looking to get photos with military weapons and vehicles, this is the place to go. They have military hummers that will pick you up anywhere on the strip and take you to their location near the fashion show mall. They have helicopters, tanks, RPG's, a fully functional shooting range and just about any military themed thing you could want. The best part is the vehicles actually work and for the right price you can drive them yourself!
