Instructions for Using Bluebook Exam App for Digital PSAT

- 1) Take a picture of your Bluebook Exam App Sign In Ticket with your iPad
- 2) Download the Bluebook Exam app on your iPad if you haven't done so already.
- 3) Click on the link for "Test your Device" in the upper right corner of the Bluebook Exam App page to make sure your device meets requirements. Make sure that you get all three green check marks. Please see Mr. Oconer as soon as possible if you do not get all green check marks when you test your device.
- 4) Click on the link in yellow for "Use a sign-in ticket from your school" and login into the Bluebook Exam app with the information on your Sign-In ticket.
- 5) Before the day of the PSAT on Wednesday, October 29th, you should view the Test Preview and Full-Length Practice Test to become more familiar with the digital PSAT testing format. You will need to log in with the information on your Sign-In Ticket and not with your College Board Account.
- 6) You should also click on the link for Start Exam Setup. Please complete this exam setup before the day of the PSAT. **When you are asked to enter in your email address, please use a non-Benet email address.** See Mr. Oconer if you have any questions or run into any technical difficulties.
- 7) Please view the PSAT Student Guide at the following link for more information about the PSAT.
