

THINGS WE NEED	WHO CAN BRING IT	NOTES
pipe and drape for stages, all three stages need backdrop; two stages need to be surrounded to absorb sound and create distinction		
lights for stages		
Sound absorption! Wooden art walls, carpets, rolling walls, actual sound absorption tech used for sound studios* This is a vital component. If someone wants to sponsor sound absorption solutions, the company would be a main sponsor or the cash sponsor making this possible to rent would qualify as a main sponsor! Christy Fair is accountable to make this happen. Christy@bilconference.com
