

Please look at items on this menu if you have extra time this week. If you have completed the basic requirements for the awareness project, this is a great opportunity to take your learning to the next level!

| | | |
|---|--|--|
| Come up with a recipe and a food item that will be a part of your display! | Create an artifact or a prototype that will bring your project to life! | Create an informational video, trailer, advertisement, etc. that will enhance your audience's understanding of your project. |
| Create a sound recording, podcast, etc. that will bring your project to life! This could simply be a recording of you telling the story of your project from the original idea to the final product. | Set up a live interview/discussion or a skype interview/discussion that will help you learn more about your topic or allow you to teach someone else about your topic. | Write and send a letter(s) to educate someone else about your topic or to get more information about your topic. |
| Create a dramatic presentation or a puppet show that will help bring your presentation to life and make it more effective in teaching others. | Create a poster or collage that helps teach about your project or about the process of the awareness project and how you feel about what you learned. | Take the next step to plan how you will use what you learned to benefit the community. Begin outreach to put your ideas into action! |
