

Privacy Policy for AI Reply by Roch

Last updated: 09/14/2025

1. Introduction

AI Reply by Roch (“the Extension”) is a Chrome extension designed to help users generate AI-powered email replies directly within Gmail. We value your privacy and are committed to being transparent about how we handle your information.

2. Data We Collect

The Extension may temporarily access the following data:

- **Email content:** The text of emails in Gmail that the user chooses to process in order to generate reply suggestions.

We **do not collect, store, or sell** any other personal, financial, health, or location data.

3. How We Use Data

The accessed email content is used **only to generate AI-powered reply suggestions**.

- The content may be securely transmitted to our backend service (<https://email-reply-generator-nuxc.onrender.com>) for AI processing.
 - The generated reply is returned immediately to the user’s Gmail session.
 - No data is stored after the reply suggestion is delivered.
-

4. Data Sharing

We do not sell, rent, or transfer user data to third parties.

Data is only shared with the AI service provider for the sole purpose of generating the requested reply.

5. Security

We implement reasonable security measures to protect data during transmission. However, please note that no method of transmission over the Internet is 100% secure.

6. User Control

- The Extension works only when the user explicitly chooses to activate it on an email.
 - Users can uninstall the Extension at any time to stop all data processing.
-

7. Changes to This Policy

We may update this Privacy Policy from time to time. Any changes will be reflected in this document with an updated “Last updated” date.
