Summary:
Late in the evening, you wake up from the distant sounds of hammering and quietly wander into the forge, where your father Hephaestus finds you. Though the forge is no place for a “little spark” at this hour, he allows you to stay by his side under strict guidance. As the fire glows and metal rings against the anvil, he gently teaches you the basics of forging, all while keeping a watchful, protective eye on you.

Start of the script:

SFX: Fire, forging etc sounds
door open (of a house to the forge)

Hephaestus: Little spark? Is that you?

SFX: forging stops, hammer puts down and footsteps

……

Hephaestus: What in Tartarus? What are you doing up at this ungodly hour? It’s three in the morning. You’re supposed to be asleep

And didn't I tell you to never come to the forge unsupervised? You are lucky that I was working in the forge right now. But you know the forge is a dangerous place for a little spark such as yourself

….

Hephaestus: *sigh* Little spark..

Even if you couldn't sleep.. You shouldn't be wandering out here alone. You know damn well it is too dangerous! you could have gotten hurt! Or worse!

…..

Hephaestus: Oh… no, no, no… I'm not mad at you.. not at all

Please dont cry little spark.. I *SIGH* I'm just very worried about you. It is already very late and you shouldn't be wandering here…

Tell me.. Why can't you sleep? What has been going on in that little head of yours?

….

Hephaestus: *full belly laugh*

I see.. I see… You woke up and heard me working in the forge and you got curious.. But now that you have seen me work you wanna forge something yourself.. Is that it now hmm…

soft laughter you really are my daughter.. Aren't you love?

…..

Hephaestus: *another belly laugh*

And you are proud of it.. Are we now? Well then.. How about we make a little deal?

…..

Hephaestus: no, you can not forge on your own

small pause

Butt… You can stay here in the forge with me. As long as you promise you'll be on your very best behaviour

That means no wondering off into things, no touching things you know you shouldn't be touching and first and foremost.. No trying to pick up stuff I drop or fall off the anvil like a little moth to a flame. got it?

…..

Hephaestus:That's my good little spark

SFX: Ruffles listeners hair and pulls out a chair from the corner

Hephaestus: Now… I want you to sit right here and watch me as I work on this order. You can still talk to me and ask me questions. But keep your hands to yourself, alright?

…..

Hephaestus: Love you to my little spark

SFX:Walking back to the anvil and goes back to work. Ambience for a bit.

…

Hephaestus: Hmmm? Did you say something,little spark?

….

Heapheastus:Oh! youre wondering what i am making and who this order is for.

It’s nothing special to be honest. It’s just another trident for your uncle Poseidon. I still can't believe how he loses these so quickly. He loses them like they are made out of water. *soft laughter* pun intended.

But seriously. I have made how many tridents for your uncle this year? I believe this is like the (add a ridiculous amount) Trident her ordered from me and its (add the month you are in).

…..

Hephaestus:You think i shouldnt make another one.. cause he will loose them anyway?

laugh I don't think that's how that works, little spark. Even though you're right, I don't mind that he keeps losing them. It keeps me busy and my wallet full

…..

Hephaestus:You.. want to to help me make a trident?..

Are you sure about it, little spark? It’s not easy, you know. It took me millions of years to learn it all. You are still a baby compared to me.

…..

Hephaestus: I know you are already (insert va’s age or random age), but i am already over 4000 years old little spark.. so for me you are just a baby.

….

Hephaestus: (laughing) OH HO HO! who are you calling ancient over here. I am still your father first and foremost.

….

Hephaestus: *sigh* you are not gonna give up until i let you forge something… arent you?

….

Hephaestus: Fine… Fine.. I' ll let you forge something. But after that, it's straight to bed with you. And no complaining that you are tired tomorrow. understood?

….

Hephaestus: good.. tho… I have one other condition before we do this. You'll listen to all my instructions and you'll do everything I tell you to. Understood?

….

Hephaestus: Good.. now.. come over here. I' ll teach you how to make a small dagger.

….

Hephaestus: no. You are not allowed to carry it around. it will stay here in the forge. now. pay close attention

SFX: Hephaestus grabs a piece of metal and stokes up the fire in the furnace

Heptheastus: Alright. now.. listen closely little spark. You grab those thongs from the workbench.

SFX: Thongs being picked up and walking to the fire

Hephaestus: good… good… now.. Carefully grab the piece of metal out of the fire and put it on the anvil

(you can add sfx here if you want)

Hephaestus:Carefull… carefulll…

SFX: metal hitting the anvil

Hephaestus: Very good. now.. we hammer it into the correct shape that we want it to be. Careful tho. The metal will have a mind of its own and its extremely hot.

…..

Hephaestus: *sigh* yes. for the first time and this time onley.. you are allowed to use my hammer. But only for this time. Understood?

…..

Hephaestus: now, just hammer it in the right size and then put it carefully back onto the fire

SFX: Hammering and time ticking by fast

Hephaestus: That's it! you're doing such a good job, little spark! Now.. the next thing we do is… -

….

Hephaestus: *very panicked* No.. no no no no no

SFX: Rushing over, knocking stuff over and putting hot metal in water

Hephaestus:*very angry*
WHAT THE HELL WERE YOU THINKING LITTLE SPARK!
YOU COULD HAVE GOTTEN VERY BADLY INJURED! YOU HAVE NO IDEA WHAT YOU WERE DOING! I TOUGHT I TOLD YOU TO LISTEN TO ME!

…..

Hephaestus:Yes! Of course I am mad and upset. You could have gotten very badly injured! Why didn't you listen to me? Why did you suddenly do your own thing…

no.. nevermind.. i dont wanna hear it..

…..

Hephaestus:no.. i said i dont wanna hear it..

*sigh*time for bed..

……

Hephaestus: no.. no more forging for you little spark. Not after that little stunt..

….

Hephaestus: I know you're sorry, doesn't change that it did happen. learn from it little spark. That even though you're sorry afterwards, doesn't mean it's immediately okay..

…

Hephaestus: Nope. I already allowed you to stay up longer. it's already very late. Come on. Let's get you to bed.

SFX:Fade out
