

Principles & Goals *by FounderChurch*

This is a partial list of a work in progress to get started with. Amen!

If you Google Search “FounderChurch” (all one word) with the quotation marks, you will bring up thousands of “hits” and be able to exclude any other look alikes that Google loves to suggest.

"FounderChurch" is an organization that is "Looking out for YOU, the “folks” so you be a person looking out for FounderChurch.

FounderChurch is a non-profit charitable religious organization that is a Church. It is a Church that is continually designed and dedicated to supporting you in becoming all you can, and want, to be.

First, we are eliminating money as a corrupting influence in the church. No one will, is now, nor ever will be, paid for working for this religious organization. No exceptions. There will be no corrupt self-seeking “love of money” here. Just as there should be none in our Government or in any so-called Non-Profits.

Second, everyone's views are intently listened to, considered and responded to, so your money, and your time and effort will go where you want it to go, not where someone else wants it to go.

Third, we have a plan for Religious Conservative Victory. You may not like every component, and detail of our present plan, but if you agree with 50% of what we advocate, that should be enough agreement to get you involved and supporting in some way, in doing the part that you DO agree with.

You are welcome and encouraged to Communicate your ideas to us here at FounderChurch@Gmail.Com. Tell us what you think we should do, and where we should put our best efforts and resources. We would appreciate it.

Our goal is to plant 5000 churches in America alone, at least one in each of our 3000 plus Counties.
