Primary Activities:

Lunar New Year Celebration: After a very successful inaugural Lunar New Year Celebration in 2023, AHA is expanding this annual event at the McMinnville Community Center.

Asian American History Museum & Cultural Center: AHA will steward the development of the existing Chinese history museum in the basement of 516 NE 3rd Street, beginning with running limited tours. Long-term, AHA will work toward making this space available to the public, which will require extensive renovations.

Building Community: AHA hosts regular events for the local Asian American community, which are communicated via our eNewsletter, website, and social media. This includes “field trips” to cultural events and Asian-owned businesses, as well as getting together for a hike, lunch break, or making culturally significant foods together.
